

# eKYCify

**Verify identity and address electronically  
from anywhere.**

**\$1.5 per check  
No onboarding fees.**

## Introducing eKYCify

eKYCify is an innovative solution that transforms KYC into a seamless and secure experience. By leveraging advanced technology, eKYCify empowers both businesses and customers to achieve faster onboarding, minimize errors, and ultimately a more efficient verification experience.

## How eKYCify works for your company:

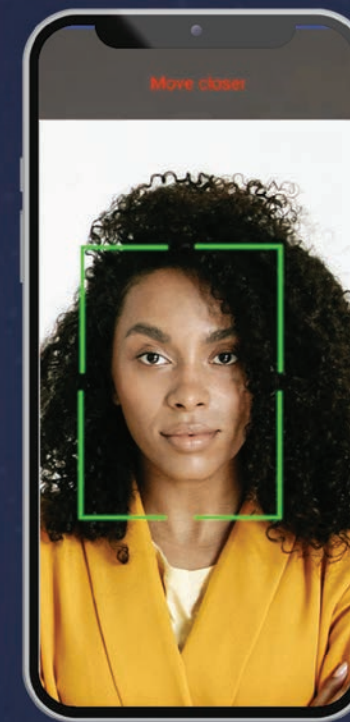

1. Onboard your company onto eKYCify.
2. Create your customer who needs to carry out KYC for your services.
3. eKYCify will generate a unique code and email the details to the customer.
4. You can verify result of the e-KYC process.

## How it works for your customer ?

The customer has to download the eKYCify mobile application from Appstore or Google Playstore and carry out the following steps:

1. Capture eKYCify code
2. Capture live selfie
3. Take picture of identity document
4. Upload utility bill < 3 months old
5. Receives email of completion of process
